

to all present and to come, whom these letters shall see or hear, we, Otto and Elisee, Baron and Baroness of Al-Barrat, greetings and all humble commendations. Equity wills and reason ordains that fighters virtuous and of noble courage be for their merits by renown rewarded whereas Bardolf Gundwaldtsson has long pursued feats of arms and as well in this and in other matters has carried himself valiantly and honorably governed himself so that he has well deserved and is worthy that henceforth forever be in all places counted, received, acknowledged and admitted into the order of the scorpions sting. We accord all privileges of this station including the right to bear the badge of the order, to wit: a scorpion statant brandishing a scimitar within an annulet or that all may know of the esteem in which he is held, in testimony whereof, we set our hand this 26th day of May Anno Societatis XLVII being 2012 in the common era.
